

The Anixter Difference

At Anixter, we are serious about service. That is why we design personalized solutions to meet your business requirements. From a warehouse staff that manages and reduces your inventory investments to our financial offerings that help you minimize your cost of doing business, Anixter is committed to you.

Product Enhancement and Packaging

We provide a variety of services to enhance and tailor products according to your specifications and installation requirements, all designed to reduce your material and labor costs. These include cutting, stripping, dyeing, striping, SpeedPull®, paralleling, twisting, printing and kitting.

Inventory Management

We design programs to help you manage and reduce your inventory investment. We provide just-in-time delivery, Kanban, guaranteed inventory, in-plant store, Ready!™ Deployment Services and Rapid Fire™ inventory control.

Engineering and Technical Expertise

We have resources to provide you with wire and cable design engineering, technical training, product, industry and technical specialists, technical literature, application engineering and troubleshooting.

Supply Chain Services

At Anixter, we take fundamental distribution a step further by applying supply chain principles and best practices to help take the costs out of our customers' business processes. By bundling our products with our innovative Supply Chain Services, we ensure our customers get the right product, the first time.

Financial Services

We provide you with the opportunity to use our financial resources instead of your own. Our service products include buy backs, guaranteed inventory programs, consigned inventories (in-plant store), inventory stock rotations, copper billing programs, consolidated invoicing, credit card ordering and cable audits.

eBusiness Solutions

Anixter can provide you with real-time information on the supply chain. Solutions include Web-based supply chain visibility, eAnixter, electronic ordering and invoicing, business-to-business systems integration and customer performance reporting.
